Whitson, dentist, with offices in the Orange County Trust and Savings Bank building, yesterday reported an attempt to rob his offices. He said that sometime between Saturday afternoon and Monday morning an attempt was made to open the door of his office by using a jimmy. The at-

tempt failed. Several months ago a narcotic thief operated in Santa Ana, according to Rogers, and secured several hundred dollars' worth of drugs through raids on the offices of doctors and dentists. A close watch will be kept on all office buildings in the future in an effort

to capture the thief, he deciared. Whether the thefts of several months ago and the more recent much interest today in the hang- attempts are the work of an organized gang of narcotic peddlers or the work of addicts, desperate through their craving for the drug, is problematic, the chief stated. 9 o'clock. O. E. S. Installation Is Witnessed By Many Guests

Warm friendliness and the true hristmas spirit prevailed at Maonic temple last night when Hernstallation of officers following a enjoyable turkey dinner

served in the basement room. The installation ceremony splendidly presented with Mrs. Tieseau Whitson, retiring worthy matron, as installing officer, and the duties of marshal assumed at ifferent points in the evening's procedure by Mrs. Hattie V. Doty

nd Mrs. Charles J. Cogan. The delicious dinner which Her mosa members enjoyed at 6:30 clock, was arranged for by a capable committee of which W. D. Barker was chairman. D. W. Cook supervised the cooking and the resultant appetizing menu was efficiently served by a large group of men of the chapter. Tables were attractively arranged with ellow chrysanthemums and scar-

t autumn leaves. Chapter session opened at o'clock and following the routine opening, the installation ceremony itself was public, with one of the largest crowds in Star history

Entry of the 1924 staff of officers escorted by those of 1923 was most mpressive, the beautiful gowns of he women adding greatly to the effect. Each wore white, the rich naterial running the gamut of eorgette and Canton crepes, chifon velvet, brocaded georgette and eavy lace. Each one carried a single long stemmed pink rose bud

Mrs. Doty in white over cloth of silver and Mrs. Cogan in orchid crepe and silver lace, as marshals carried rods formed of pink rose buds and maiden hair fern. The former conducted the new worthy matron, Mrs. Mabel C. Rowland, to her station while the latter had the pleasant experience of introducing her husband, Charles J Cogan, as worthy patron and es corting him to his station.

In rapid succession Mrs. Whitson installed associate matron, Mrs. Amber Burke; secretary, Mrs. Nell Winslow; tresaurer, Mrs. Clara McCord, all introduced by Mrs. Doty; conductress, Mrs. Geneive Lacy; associate conductress. Mrs. Doty, introduced by Mrs. Cogan; chaplain, Mrs. Ella G. Gowen; Marshal, Miss Lula Minter; organist, Mrs. Nona Cloyes, proxy for Miss Mayme Havens who continued to preside at the piano.

Beautiful xylophone and piano numbers by Miss Lizetta Phillips and Miss Glenda Mae Waggoner broke the routine of the installation as did deeply impressive solos

Mrs. Mary E. Redmond as warden and her husband, Edgar M. nosa chapter, O. E. S. held annual Redmond as sentinel, completed the list of new officers. The singing of "Drink to Me Only With Thine Eyes" by Mr. Phillips added the final beautiful touch.

Many charming incidents marked the evening, the most pleasing probably being the presence of the young daughters of the two new residing officers. When young Miss Ninette Rowland and her small sister Barbara went to their mother with arms filled with flowers for her, it was a tenderly lovey scene, as it was when little Miss Virginia Cogan carried a great basket of roses to her tall father. Virginia's little sisters Cara and Eleanor were deeply interested observers also.

In her pleasant little inauguration speech, Mrs. Rowland took the opportunity to introduce her busband, C. M. Rowland, her two young daughters and her mother. Mrs. C. F. Crose, also Mrs. Cogan and the three little daughters of the new patron.

One of her remarks regarding the calm indifference of the giant redwoods to the winds which cruelly disturbed smaller growths, was seized upon by her patron, Mr. Cogan in his humorous litle talk, and applied personally as he ran his hand over the glowing thatch that surmounts his six feet plus of height. Mr. Cogan had previously peen hailed delightedly by brother Masons as a "symphony in red and black."

In his talk the new patron also paid glowing tribute to Mrs. Whitson and the gracious and tactful kindliness that has made her official year one of the pleasantest in Hermosa's history; her charm of personality being supplemented by Mr. Tarpley's genial friendli-

Short talks by the retiring matron and patron expressing appreciation for the co-operation and courtesies extended them during the year, were followed by the presentation of a beautiful past maron's pin to the former and a Masonic and Eastern Star pin to the latter, gifts of the chapter.

It was almost like a Christmas party by reason of the numerous Each officer of 1923 received from Mrs. Whitson a beautiful, hand-embroidered luncheon cloth with napkins to match, no two of the gifts being alike, and from Mr. Tarpley a charming gift book. 'A Daily Staff."

Polychrome book-ends for Mr. Tarpley and a book of delightful bits from Kipling for Mrs. Whitson, will recall to each the pleasant friendliness of the other. To add to the spirit of giving was a handsome bag (beaded tapestry)
presented to Mrs. Trueblood by Mrs. McCormac

The delightful affair was brought to a close by a gracious and friendlain's Cough Remedy for coughs, ly little talk by Mrs. Caroline Carcolds, croup, bronchial, "flu" and ter, matron of Santa Ana chapter, whooping coughs, and tickling and a short but equally friendly

Enjoy College Spirit Manifested During Berkeley Visit

Thoroughly imbued with the true chool spirit, Mr. and Mrs. Dean Johnston of North Main street, have returned from a delightful motor trip to Berkeley where they visited their daughter, Miss Adele Johnston, a student at the University, over the Thanksgiving holi-

So many delightful events conspired to make the trip a pleasant Among them was, of course the Thanksgiving game when Berkeley and Stanford clashed on the gridiron at the mammoth new stadium at Berkeley. The stadium, seating 70,000 persons, was com pletely filled, with a crowd esti-mated at 10,000 watching from the

hills rising above. With their daughter a Berkeley student and their nephew, Jack Snow (son of Mr. and Mrs. J. Edmund Snow, 335 West Eighteenth street) a Stanford man, Mr. and Mrs. Johnston were divided in their college allegiance. But they were united in declaring it to be one of the most impressive experiences of their lives, to see the

ceremonies following the game in which Berkeley proved victor. The excellent chorus singing when each school honored the other, the famous "serpentine" and the intense silence of the deeply interested crowd, all proved experience never-to-be-forgotten

"Don't Be Afraid to Smile"

Do you realize how much depends upon the condition of your teeth-appearance, health, happiness, comfort, etc., all of which means success and prosperity.

Do you know that people judge you by the looks of your teeth? Well kept teeth indicate good breeding, good character, right thinking and right living.

It is not possible for us all to preserve the original beauty of our teeth, but no one need neglect them and let them go from bad to worse. Like the proverbial "stitch in time saves nine"-dental work done in time will save much needless expense later on.

After post-graduate work and nine years

practical experience in dentistry I have located in Santa Ana with the most modern equipment known to dental science, and am prepared to render prompt service and guaranteed quality work in all branches at most reaconable prices.

Consultation, examination and estimates are given free of charge. I will let you know the exact cost of putting your teeth in firstclass condition before starting the work.

For the benefit of those who cannot spare the time to have dental work done during the daytime my office will remain open evenings until 8 o'clock.

Club Here Airs Industrial Survey Possibility As Having Real Merit

Santa Ana's practice of telling the world about itself, especially that portion of the world that reads the Los Angeles newspapers, proving beneficial in the way of making the city greater.

Executives of the Greater Santa Ana club, booster organization which has been inserting a series of Santa Ana advertisements in newspapers of the southern metropollis, made this clear here today, when they announced that the publicity campaign probably would be continued for another eight weeks. \$2000 Yet Due.

"The advertising drive will not be discontinued for two months if unpaid pledges to the Greater Santa Ana club's fund are met," declared Z. B. West jr., secretary of the organization, who, pursuant to instructions received at a meeting of the club's directors at St. Ann's Inn yesterday, was at work procuring payment of delinquencies, in order that the booster body might continue its series of ad vertisements.

Approximately \$2000 is due on pledges, it was brought out.

Pointing out that the campaign had been continued longer than it was thought possible when originally planned, members said if all the delinquents meet their pledges the series could be continued probably for another two months.

And then, after taking the read-er from one end of the county to can get away I go to the games." the other, pointing out the beauties and calling attention to the advantages, Lewis concludes:

Orange county would be complete without direct reference to the broad Pacific which, in exact harmony with the distant mountains, contributes so very materially to the wholesomeness of the Orange county climate. Down in Orange county, they tell you strange things about the 'tonic in the air.' They say it is different from anything to be found anywhere in this coun-

"Now, I am free to confess, I used to take this statement with a grain of salt until I had given the natter some pretty thorough investigation. I used to think the people were all wrong for trying to make us believe the air of the mountains and the sea combined gave a tonic effect hard to duplicate in this fair land of ours.

Tells Beach Wonders "But after sprawling on the sands at Huntington Beach, fishing and idling at Newport and Balboa, swimming in the surf near San Juan Capistrano, and squandering countless happy hours at Laguna Beach, where some of the most promising artists in the country maintain their studios, I am inclined to think the people were not wrong at all. It seems was all wrong myself. There is something in the air. And it is so vapor-like and elusive that I cannot even describe it.

"As for the coast line, with its rugged grandeur, and the moun-tain range, with its beckening mystery, I shall have to leave these entirely in the hands of my artist friends at Laguna. Such things suggest the very pinnacle of sublimity, and must be left to Conway Griffith, Clarkson Colman and other masters of the brush who love Orange county and have mastered the trick of transferring that love, or something closely ap-

proaching it, to canvas,

Plan to Place Old Store Building

On their bid of \$28,392.31, Oglesby and Dahl today had been awarded the contract for construction of a pavement and combination pavement and storm drain on South Flower street, from Fairview avenue south to Edinger street, following opening of bids by the city council last night.

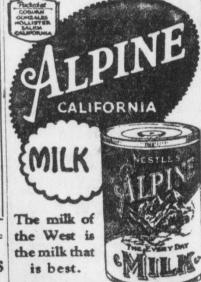

Other bids were by Wells and B essler, \$29,201.38, and B. R. Ford, \$29,522.31. The street work will connect with a nine-foot pavement to be constructed south from Edinger street, through property of the Havens Seed company, to a ditch of the Delhi Drainage dis-

Plans and specifications, were adopted for a sewer line on Poinsettia, from Seventeenth to Twentieth street; a resolution was adopted declaring intention of the council to pave Fairview avenue, Flower to Bristol street, and an assessment map was adopted for the district created for the paving of West First street.

A petition for paving Wakeham street, Orange avenue to Oak street, was referred to the city engineer for checking, as was also a petition for paving Fifteenth, Broadway to French.

Permission was given Smart-Final company to install a 290 gallon gasoline tank at its place of business on East First street. The application of Frank O. Bixley to locate an oil station at 901 South Main street was referred to Com-missioners McPhee and Neff.

THE FOOL

CHANNING POLLOCK'S WONDERFUL PLAY NOVELIZED BY RUSSEL M. CROUSE Pollock won world fame with such earlier theatrical successes as The Pit, In the Bishop's Carriage, The Little Gray Lady, Such a Little Queen, Roads of Destiny, The Sign of the Door, The Crowded Hour. But The Fool stands alone among stage sensations of a generation. In book form it ran through six editions in three months. Pollock was invited to discuss it before more than 300 universities, schools, clubs and churches. He has received the Keys to Boston. A tree has been planted in his honor in Poet's Row, Boston Common.

With the stage set for the big Boy Scout celebration to be held at the grammar school this Friday night, members of the local Boy Scout troop were today working hard in an endeavor to capture the fine silver loving cup which is to be resented to the Scout selling the largest number of tickets.

Many of the scouts put on a campaign in the business district Saturday morning and according to reports received the tickets were going fast. There are only 500 seats available, it is said, and many of these are already gone. Some of the scouts were dressed in the manner of negros with their faces placked and wearing striped preeches and fancy shirts.

The scout selling the largest number of tickets to the benefit will be presented with the silver cup, which was donated by John Eader of the Eader bakery, during the performance at the grammar school Friday night.

The California Jubilee concert singers, a traveling company of singers from Los Angeles, will furnish the main part of the enter-tainment for the evening. Other numbers will be furnished by local talent and will include several ancing numbers by local girls and stunt or two by the Scout troop.

The proceeds of the entertainment are to be used by the scouts o furnish their cabin, now being wilt by the Lions club and the carpenters union. The cabin is expected to be completed for them oon. Some of the proceeds will also be used for the Boy Scout Christmas fund, it is said.

The silver loving cup is also to he awarded during the evening. Competition for the cup is keen among the boys and there is considerable speculation at the present time as to who will be the

BUSINESS LOTS

Fronting on the Boulevard

SANTA ANA HEIGHTS!

We now offer what we believe to be the greatest income opportunity in Orange county. In the subdivision of Santa Ana Heights we provided for all of the things which our years of experience as subdividers had taught us tended to increase values, encourage sound and steady growth, and while protecting the interests of all of our clients furnish all the conveniences of modern life.

CONSEQUENTLY WE RESERVED

12 Lots

which will form the

Business Center

of this large, prosperous and rapidly growing district.

REMEMBER!

ONLY 12 BUSINESS LOTS IN 800 ACRES OF RESTRICTED HOMESITES, INCLUDING 11-2 MILES OF BOULEVARD FRONTAGE.

These lots form a perfect business district on both sides of the only real "four corners" on Newport Boulevard, and this fact makes not only Santa Ana Heights, but the prosperous Fairview Farms section tributary to this trading section.

This property is ideally situated for use as sites for a general store, hardware dealer, grocery market, plumbing shop, oil station, or any other enterprise.

In selling these business lots we will continue our policy of protecting the interests of our clients by restrictions which will prevent the erection of unsightly shacks. In fact, this is to be a business center which will make you money, and one in which you will be proud to own property. In other words it is going to be worthy of

Grant Orange Firemen Vacation; Deny Increase

ORANGE, Dec. 4.-In lieu of an increase in salary, Orange fire truck drivers affiliated with the Orange volunteer fire department will receive a two weeks' vacation annually under pay, the city council decided when a request for inreased salary was placed before hat body for final action.

The request, which had been inder advisement for a week, hav ing been presented at the last meeting by Fire Chief A. L. Tom lin, sought to have the truck driv ers' pay raised above their wages

of \$120 per month. The council, after studying sim ilar salaries in other cities of cor responding size, decided to main tain the present rate and in addi tion grant a two weeks' vacation each year with pay.

SEVENTY-FIVE HOGS STOLEN LA POORTE, Ind., Dec. 4.-On the strangest robberies on rec ord is reported from Marshall county, where Garn Brothers, farm owners, reported that seventy-five nogs ready for the market were stolen without the slightest trace of the raiders. The officers advanced the theory that the hogs were loaded on trucks and taken to the Chicago market and sold. The loss will reach several thousand dollars.

F. S. McClain

The guide-post, shown in the drawing, is unique and certainly vague in its statements. Its most interesting feature is the fact that it conceals the name of a famous city or a town, either one of which is considerably over a hundred miles from Cleveland. Can you discover the hidden locality?

Yesterday's answer: If a man is aged 45 years, and his son 12, the man will be three times as old as his son in just 41/2 years. At that time he will be 491/2 and his son 161/2.

The mempership of the commission was decided upon last evening at the meeting of the city trustees. Plan Zoning Oldinance

The first act of the council, in conjunction with the planning body, was to launch proceedings which will lead to the passage of a zoning ordinance and which will restrict building in Newport Beach. Business structures in the restricted zones, especially around the pier here, would be of at least Class B construction and conforming with fireproof regulations. The council plans to repeal all other building regulations. H. Cardoza Sloan was the principal proponent

of the plan. The contract for the installation of street lights on Finley street was awarded to the Newport Bay Electric company on a bid of about \$1600. The Robertson Electric Company of Santa Ana was

O God within us and above, Close to us in the Christ we love, Through Him, our only Guide and way, May heavenly life be ours today!

"THE FOOTBALL LEVEL"

Dr. Stewart Paton, a psychologist, lecturing at one of the big universities, says college football is so overemphasized that there is danger of the mentality of six weeks to sixteen months? students being affected by it and remaining at "the football level" for the rest of their lives.

"The emotional reaction to the football spirit in colleges," he explains, "gives the students a distorted idea of the relative importance of the athletic and intellectual sides of academic life. The process of makrobs students permanently of the ability to judge

There is doubtless something in what the learned psychologist says. Many a parent and many a disinterested observer can't help thinking that students are turning real values upside down.

Yet the ancient Greek education was largely athletics, and when a local runner won the Marathon race they would take down the city wall to let him in by the shortest way when he returned. Homer did not scorn to sing of athletic games in the greatest of epic poems. And Greece accomplished quite a little in the way of scholarship and civilization.

You can't keep a good man down forever, even if he is given to playing football or yelling his head off when his team wins. And perhaps the emotional shaking up of such events is, on the whole, good for students in the college or high school. Calm thinking may come later. It is certainly good to learn, even Conditions will become worse and worse unless ef through such a crude medium as frenzied football games, a generous enthusiasm for a common cause and a capacity for organized group action. Such qualities are needed in social and political life.

JUDICIAL "CONTEMPT"

It is no tempest in a teapot that has been stirred up by the action of a New Jersey judge in sending the controller of New York city to jail for 60 days for criticising a certain judicial procedure in which the controller was officially interested. The press generally condemns such an act as flagrant abuse of court authority to punish for "contempt". Citizens of every class insist that if judges possess authority for such action, Congress should curb their powers.

Critics maintain that power to punish for contempt of court, originally necessary to maintain order in court and insure compliance with judicial decisions, has been extended by the courts themselves, though not by written laws, until no one knows its legal limits, and in practice may be subject at any time to gross abuse.

It seems to be an open question in America, though not elsewhere, whether free speech implies freedom to criticise the courts. However that may be, it seems only common-sense justice to insist, as most of the critics are doing, that a judge should not be allowed to act as accuser, judge and jury in case of an offense say, for its size and general excellence. California against himself, and send the offender to jail without oranges are competing successfully with the Florida recourse. TOM SAWYER'S CAVE

Shade of Tom Sawyer! His cave on the bank of the Mississippi river near Hannibal, Mo., is likely to be whitewashed for the benefit of tourists. Not that whitewash is inappropriate for Tom Sawyer's cave. He was the boy, and Mark Twain the author, who may be said to have made whitewash inseparable from thoughts of American ingenuity. But whitewashing stalagmites and stalactites in order to make lost out.—San Francisco Chronicle. them look better to tourists sounds a little fussy.

It may be a sensible move. It is said that many years ago the strange and interesting formations within the cave were gleaming white. Since then, however, thousands of tourists have passed through, carrying lighted candles whose smoke has dimmed the tourists have smoked corn cob pipes. That has be- place.—Punxsutawney Spirit. come a traditional act for visitors to the Mark Twain

So perhaps a coat of whitewash applied to the interior of the cave and a change to electric flashlights instead of the candles are inevitable, although one wonders whether Tom would approve any more of having his cave cleaned up than of having his own face washed.

THE RICH TAXPAYERS

Secretary Mellon's proposal to cut income tax rates all the way down the line, with most of the saving through the veins. The heart has to push the blood going to small income people, has reconciled many to a cut in the higher income tax rates. It doesn't seem so bad to let the big fellows off easier when the little fellows stand to gain about 70 per cent of the benefit.

There are still those, however, who maintain as a matter of principle that the large incomes should have no reduction. As one senator puts the argument, to pay them.

To this one newspaper editor gives the rather obvious reply that "probably they can afford it, but ways sent them round the campus of they do not have to." Tax returns show that, as matters stand; the rich are not paying those heavy surtaxes, but putting their capital into untaxable investments. The higher their income tax rate has been

Disregard of Traffic Laws

Pasadena Star-News . Black pages appear in the record of automobiling in this Southland. In ten months, in the three ing relatively unimportant things seem all-important counties of Los Angeles, Orange and San Diego, the number of violations of traffic laws reported was 34,216! Is it any wonder that there are accidents in These figures are not from unreliable sources. They come from the Automobile Club' of

Southern California. Failure to signal before turning is the most free quent offense. There were 3761 violations of this kind during this ten-month period. Other forms of violation, with the number of cases of each, were: Improper parking, 2447; reckless driving, 2219; careless with respect of headlights, 2328; passing street cars loaded with passengers, 1727; passing a moving vehicle on the right, 2195.

This is a startling showing. It denotes a prevalence of disregard for the rules of safety in traffic which is alarming. Small wonder that thoughtful, law-respecting autoists are doing their level best to correct this growing practice of gambling with human life. This problem must be coped with, and that vigorously. It is growing more serious steadily. Great numbers of machines are going into traffic. The volume of travel by automobile on the streets and highways is increasing prodigiously fectual means be found for betterment.

Not An Investment .San Bernardino Sun

The editor of The Sun is in receipt of a letter from a correspondent who says she is a 'working woman, and asks as to the safety of investing small sum in the stock of a certain oil company. We must say in frankness that the purchase of stock in an oil company in an unproven field is not an investment. It is a speculation, and nobody ought to buy stock in such a company who cannot afford to

We believe these companies now operating in and about San Bernardino are honestly managed, that the money paid for stock will be properly expended, and we trust they will be sufficiently financed so as to be able to make thorough tests and demonstrate whether there is oil underlying this valley. People of the city and particularly property owners ought to share the expense of the experiment by buying stock as they are able to do so. But whoever does so must do it with the knowledge that there is uncertainty until the presence of oil has ment but a speculation.

That Body of Yours

THE HEART'S LITTLE TASK Did you ever think of the work done by that heart of yours? It pumps quarts of blood through out your system at such a rate that the entire trip is made about three times within one minute. And every bit of force that sends the blood right

to your toes and back again is by that stroke of the heart. It gets no help anywhere. It encounters the resistance of the vessels carrying the blood away and bringing it back. Although it is a pump there practically no suction of the blood hard enough to send it the complete journey round. And to do this it needs what? Just what it is

Worth While Verse

AT THE LAST The stream is calmest when it nears the tide The flowers the sweetest at the eventide, And birds most musical at close of day, And saints divinest when they pass away.

Morning is lovely, but a holier charm Lies folded close in Evening's robe of balm And weary man must ever love her best For Morning calls to toil, but Night to rest.

She comes from Heaven, and on her wings doth bear, A holy fragrance, like the breath of prayer; Footsteps of angels follow in her trace. To shut the weary eye of Day in peace.

All things are hushed before her as she throws O'er earth and sky her mantle of repose; There is a calm, a beauty and a power That Morning knows not, in the evening hour.

Until the Evening must we weep and toil,

Plow life's stern furrows, dig the weedy soil, Tread with sad feet our rough and stormy way, And bear the heat and burden of the day. Oh, when our sun is setting, may we glide

Like summer evening down the golden tide; And leave behind us, as we pass away Sweet starry twilight round our sleeping clay!
